PROFESSIONAL SUMMARY

Passionate software engineer with expertise in building modern web applications. Proficient in React, Next.js, TypeScript, and cloud technologies. Strong foundation in computer science principles and years of industry experience creating scalable, maintainable, and user-centric solutions.

SKILLS

- JavaScript, TypeScript, Python, Java
- React, Next.js, Node.js, Express
- MongoDB, PostgreSQL, MySQL, Firebase
- Tailwind CSS, Bootstrap, Material UI
- Git, AWS, Docker, Vercel
- RESTful APIs, GraphQL, WebSockets
- Agile Development, CI/CD, TDD

EXPERIENCE

Software Engineer
Company Name | Jan 2023 - Present | San Francisco, CA

- Developed and maintained React/Next.js applications for enterprise clients
- Implemented RESTful APIs using Node.js and Express, handling millions of requests daily
- Optimized application performance, reducing load times by 40% through code optimization and caching strategies
- Collaborated with designers and product managers to create responsive UI components and improve user experience
- Led a team of 3 developers in delivering a major product feature on time and within budget

Junior Developer
Another Company | Jun 2021 - Dec 2022 | Remote

- Built UI components using React and Tailwind CSS, ensuring cross-browser compatibility
- Fixed bugs and implemented new features based on user feedback
- Wrote and maintained unit tests, improving test coverage by 30%
- Participated in code reviews, providing constructive feedback to team members
- Assisted in the migration of legacy code to modern JavaScript frameworks

EDUCATION

Bachelor of Science in Computer Science
University Name | Aug 2017 - May 2021 | City, State
GPA: 3.8/4.0

PROJECTS

E-commerce Platform
Built a full-stack e-commerce platform using React, Node.js, and MongoDB. Features include user authentication, product catalog, shopping cart, and payment integration.
Tech Stack: React, Node.js, MongoDB, Stripe API

Task Management App
Developed a collaborative task management application with real-time updates using WebSockets. Users can create, assign, and track tasks in real-time.
Tech Stack: Next.js, TypeScript, Firebase, Socket.io

Portfolio Website
Designed and developed a responsive personal portfolio website to showcase projects and skills. Features dark/light mode toggle and smooth animations.
Tech Stack: React, Tailwind CSS, Framer Motion
